Relevant Experience

Frontend Developer @ StoreLab

August 2022 - Present // London, UK

- Spearheaded the development of new features for a Shopify-based React application, enabling the creation of mobile applications using a no-code solution.
- Analyzed the application and identified opportunities for refactoring to better meet client and marketing needs, resulting in improved performance and user experience.
- Collaborated closely with the CTO and directors to stay abreast of market trends and incorporate new ideas into the application.

Javascript Developer @ Sportz Interactive

September 2019 - July, 2021 // Mumbai, India

- Designed and developed a cutting-edge web application that generates visually stunning infographics for a variety of sports in PDF, PNG, and Word formats, providing a unique and engaging user experience.
- Collaborated with multiple teams on high-profile projects, including the Graphics Broadcasting Tool, which was used to broadcast cricket graphics on live streams for major clients such as ECN and Fan Code, demonstrating strong teamwork and project management skills.
- Mentored and coached junior developers to ensure the application was developed to the highest standards, contributing to a collaborative and supportive team environment.

Frontend Developer @ Vaisansar Technologies

September 2018 - July 2019 // Mumbai, India

- Architected and implemented the front-end of the company's ERP portal using cutting-edge technologies such as RequireJS, NodeJS, and MaterializeCSS, reducing load times by an impressive 50% and improving user experience.
- Proposed and implemented innovative solutions to design and marketing challenges, resulting in increased customer engagement and sales.
